

# Manifesto

Ideological Panel believes in striving for a NAYA PAKISTAN – An aspiration for making Pakistan a modern Islamic social welfare state. Providing a valuable and tangible input to Pakistan Tehreek e Insaf for making a society which upholds the rule of law for social & economic justice in Pakistan. Ideological panel believes that it is about time to transform the role of PTI overseas chapters where they can contribute more objectively beyond political activism, in this current phase of struggle PTI Sweden should play a vital role in the knowledge transfer of 'systems' for helping Pakistani institutions in improving governance . While Prime Minister of Pakistan Imran Khan takes inspiration from Swedish social welfare system, Ideological panel aims to aid in :

- Human development in Pakistan by providing a platform for transfer of knowledge and Ideas and enabling business activities
- Proposing structural improvements in processes and way of working for local democracy to ensure devolution of power.
- Assistance in setting up Exchange programs for capacity building of Pakistani institution and stakeholders of Local democracy.
- Helping Pakistan transforming to knowledge based economy
- Fueling Entrepreneurship in Pakistan
- Providing outreach to Pakistani Industry
- Introducing brand ambassadors for " Made in Pakistan" through Expat Area experts
- Providing Assistance to Embassies for engagement with industry
- Painting a positive image of Pakistan
- Assistance in lobbying foreign policies of Government of Pakistan.
- Engagement of local community for further strengthening of PTI across Sweden
- Assistance from IDEA ( Institute of Democracy and Electoral Assistance) and /or other Swedish institution for strengthening the Local democracy in Pakistan

Ideological panel aims to create task forces in different areas - key areas of work to begin with are

- Energy reuse
- Environment
- Local democracy & Governance
- Public Health
- Software Export
- Education

List can expand by adding more working areas depending on resources available and needs
